LIST OF CONTENTS

VOLUME 28

NUMBER 1

Michael E. Scharf, Jonathon J. Neal, Craig B. Marcus and Gary W. Bennett	1	Cytochrome P450 purification and immunological detection in an insecticide resistant strain of German cockroach (*Blattella germanica*, L.)
Thorsten Burmester, Claudia Kölling, Birgit Schroer and Klaus Scheller	11	Complete sequence, expression, and evolution of the hexamerin LSP-2 of *Calliphora vicina*
Denis R. Joanisse and Kenneth B. Storey	23	Oxidative stress sand antioxidants in stress and recovery of cold-hardy insects
Erika Plettner, Keith N. Slessor, Mark L. Winston	31	Biosynthesis of mandibular acids in honey bees (*Apis mellifera*). *De novo* synthesis, route of fatty acid hydroxylation and caste selective β-oxidation
Ornella Cusinato, Alex F. Drake, Gerd Gäde and Graham J. Goldsworthy	43	The molecular conformations of representative arthropod adipokinetic peptides determined by circular dichroism spectroscopy
M. Ring, J. Meredith, C. Wiens, A. Macins, H. W. Brock, J. E. Phillips and D. A. Theilmann	51	Expression of *Schistocerca gregaria* ion transport peptide (ITP) and its homologue (ITP-L) in a baculovirus/insect cell system
Lynne E. Stagg, David J. Candy	59	The effect of analogues of adipokinetic hormone II on second messenger systems in the fat body of *Schistocerca gregaria*
Hong Li, Bryan J. Young, Houle Wang and David A. Schooley	69	The structure of ubiquinones isolated from developing embryos of *Manduca sexta*
Contents of *Journal of Insect Physiology*	I	

NUMBER 2

Kunihiro Shiomi, Yukihiro Sato, Kunio Imai and Okitsugu Yamashita	75	A hydrophobic peptide (VAP-peptide) of the silkworm, *Bombyx mori*: structure, expression and an enhancing function of diapause hormone activity
Steven P. Tammariello and David L. Denlinger	83	G0/G1 cell cycle arrest in the brain of *Sarcophaga crassipalpis* during pupal diapause and the expression pattern of the cell cycle regulator, proliferating cell nuclear antigen
Marianna Pinter, Gaspar Jekely, Robert J. Szepesi, Attila Farkas, Ulrich Theopold, Helmut E. Meyer, Dan Lindholm, Dick R. Nässel, Dan Hultmark and Peter Friedrich	91	TER94, a *Drosophila* homolog of the membrane fusion protein CDC48/p97, is accumulated in nonproliferating cells: in the reproductive organs and in the brain of the imago
Sandra Schorderet, Roger D. Pearson, Tony Vuocolo, Craig Eisemann, George A. Riding, Ross L. Tellam	99	cDNA and deduced amino acid sequences of a peritrophic membrane glycoprotein, 'peritrophin-48', from the larvae of *Lucilia cuprina*
A. Korchi, J-P. Farine and R. Brossut	113	Characterization of two male-specific polypeptides in the tergal glands secretions of the cockroach *Leucophaea maderae* (Dictyoptera, Blaberidae)
Forthcoming Papers	I	
Contents of *Journal of Insect Physiology*	III	

NUMBER 3

Richard Beckwitt, Steven Arcidiacono and Robert Stote	121	Evolution of repetitive proteins: spider silks from *Nephila clavipes* (Tetragnathidae) and *Araneus bicentenarius* (Araneidae)
Jean-Philippe Charles, Carol Chihara, Shamim Nejad and Lynn M. Riddiford	131	Identification of proteins and developmental expression of RNAs encoded by the 65A cuticle protein gene cluster in *Drosophila melanogaster*

Peter M. Campbell, Richard D. Newcomb, Robyn J. Russell and John G. Oakeshott 139 Two different amino acid substitutions in the ali-esterase, E3, confer alternative types of organophosphorus insecticide resistance in the sheep blowfly, *Lucilia cuprina*

Paul D. Shirk, Rachel Broza, Miriam Hemphill and O. P. Perera 151 α-Crystallin protein cognates in eggs of the moth, *Plodia interpunctella*: possible chaperones for the follicular epithelium yolk protein

M. G. Kim, S. W. Shin, K.-S. Bae, S. C. Kim and H.-Y. Park 163 Molecular cloning of chitinase cDNAs from the silkworm, *Bombyx mori* and the fall webworm, *Hyphantria cunea*

Anthony J. Walker, Louise Ford, Mike E. N. Majerus, Irene E. Geoghegan, Nicholas Birch, John A. Gatehouse and Angharad M. R. Gatehouse 173 Characterisation of the mid-gut digestive proteinase activity of the two-spot ladybird (*Adalia bipunctata* L.) and its sensitivity to proteinase inhibitors

Makoto Hirai, Masao Yuda, Tetsuro Shinoda and Yasuo Chinzei 181 Identification and cDNA cloning of novel juvenile hormone responsive genes from fat body of the bean bug, *Riptortus clavatus* by mRNA differential display

Jianxin Sun, Masao Yuda, Ken Miura and Yasuo Chinzei 191 Characterization and cDNA cloning of hemoprotein in the salivary glands of the blood-sucking insect, *Rhodnius prolixus*

Forthcoming Papers I

Contents of *Journal of Insect Physiology* III

NUMBER 4

ZIA Al-Fifi, SL Marshall, D Hyde, JH Anstee and K Bowler 201 Characterization of ATPases of apical membrane fractions from *Locusta migratoria* Malpighian tubules

Y Zhao and P Eggleston 213 Stable transformation of an *Anopheles gambiae* cell line mediated by the *Hermes* mobile genetic element

Y Qian, J Yuan, RC Essenberg, AS Bowman, AL Shook, JW Dillwith and JR Sauer 221 Prostaglandin E_2 in the salivary glands of the female tick, *Amblyomma americanum* (L.): calcium mobilization and exocytosis

C Girand, M Le Métayer, M Bonadé-Bottino, M-H Pham-Delègue and L Jouanin 229 High level of resistance to proteinase inhibitors may be conferred by proteolytic cleavage in beetle larvae

PWK Ma, TR Davis, HA Wood, DC Knipple and WL Roelofs 239 Baculovirus expression of an insect gene that encodes multiple neuropeptides

E Jacquin-Joly, M Burnet, M-C François, D Ammar, P Nagnan-Le Meillour and C Descoins 251 cDNA cloning and sequence determination of the pheromone biosynthesis activating neuropeptide of *Mamestra brassicae*: a new member of the PBAN family

X-F Zhao, J-X Wang and Y-C Wang 259 Purification and characterization of a cysteine proteinase from eggs of the cotton boll worm, *Helicoverpa armigera*

P Rauch, M Grebe, C Elke, K-D Spindler and M Spindler-Barth 265 Ecdysteroid receptor and ultraspiracle from *Chironomus tentans* (Insecta) are phosphoroproteins and are regulated differently by molting hormone

Forthcoming Papers I

Contents of *Journal of Insect Physiology* III

NUMBER 5/6

Thomas W. Sappington, Alexander S. Raikhel 277 Molecular characteristics of insect vitellogenins and vitellogenin receptors

Hajime Okuyama, Shoichiro Kurata, Ko-ichi Homma, Shunji Natori 301 Selective inactivation of elongation factor-2 (EF-2) in free adipocytes obtained by treating *Sarcophaga* larval fat bodies with chymotrypsin

Rosana Regel, Sergio R. Matioli, Walter R. Terra 309 Molecular adaptation of *Drosophila melanogaster* lysozymes to a digestive function

La-aied Prapanthadara, Hilary Ranson, 321 Cloning, expression and characterization of an insect class I

Pradya Somboon, Janet Hemingway glutathione *S*-transferase from *Anopheles dirus* species B

J.M. Hinton, M. Nejad, J.P. Issberner, J.T. Hancock, R.H. Osborne 331 Muscarinic acetylcholine and proctolin receptors in the foregut of the locust *Schistocerca gregaria*: role of inositol phosphates, protein kinase C and calcium in second messenger effects

Yongqin Huang, Mark R. Brown, Terry D. Lee, Joe W. Crim 345 RF-amide peptides isolated from the midgut of the corn earworm, *Helicoverpa zea*, resemble pancreatic polypeptide

Michael E. Salvucci, Gregory R. Wolfe, Donald L. Hendrix 357 Purification and properties of an unusual NADPH-dependent ketose reductase from the silverleaf whitefly

Morikazu Imamura, Kazu Haino-Fukushima, Toshiro Aigaki, Yoshiaki Fuyama 365 Ovulation stimulating substances in *Drosophila biarmipes* males: their origin, genetic variation in the response of females, and molecular characterization

Peter W.K. Ma, Douglas C. Knipple, Wendell L. Roelofs 373 Expression of a gene that encodes pheromone biosynthesis activating neuropeptide in the central nervous system of corn earworm, *Helicoverpa zea*

Emmanuelle Danty, Gèrard Arnold, Thorsten Burmester, Jean-Claude Huet, Dominique Huet, Jean-Claude Pernollet, Claudine Masson 387 Identification and developmental profiles of hexamerins in antenna and hemolymph of the honeybee, *Apis mellifera*

Rik van Antwerpen, Kirk Salvador, Ken Tolman, Cynthia Gentry 399 Uptake of lipids by developing oocytes of the hawkmoth *Manduca sexta*. The possible role of lipoprotein lipase

Stéphane Debernard, Christophe Morisseau, Tonya F. Severson, Li Feng, Hubert Wojtasek, Glenn D. Prestwich, Bruce D. Hammock 409 Expression and characterization of the recombinant juvenile hormone epoxide hydrolase (JHEH) from *Manduca sexta*

Svend Olav Andersen 421 Amino acid sequence studies on endocuticular proteins from the desert locust, *Schistocerca gregaria*

Forthcoming papers I

Contents of *Journal of Insect Physiology* III

NUMBER 7

Christine M. Conyers, Alan D. MacNicoll, Nicholas R. Price 435 Purification and characterisation of an esterase involved in resistance to organophosphorus insecticides in the saw-toothed grain beetle, *Oryzaephilus surinamensis* (Coleoptera: Silvanidae)

Stefano Marchetti, Cristina Chiabà, Fiorella Chiesa, Antonella Bandiera, Anna Pitotti 449 Isolation and partial characterization of two trypsins from the larval midgut of *Spodoptera littoralis* (Boisduval)

Ellen M. Dotson, Anthony J. Cornel, Judith H. Willis, Frank H. Collins 459 A family of pupal-specific cuticular protein genes in the mosquito *Anopheles gambiae*

Chikara Hirayama, Hitoshi Saito, Kotaro Konno, Hiroshi Shinbo 473 Purification and characterization of NADH-dependent glutamate synthase from the silkworm fat body (*Bombyx mori*)

Simon F. Vroemen, Hugo De Jonge, Wil J. A. Van Marrewijk, Dick J. Van der Horst 483 The phospholipase C signaling pathway in locust fat body in activated via G_q and not affected by cAMP

Gae E. Kovalick, Michael C. Schreiber, Amy K. Dickason, Richard A. Cunningham 491 Structure and expression of the *Antigen 5-related* gene of *Drosophila melanogaster*

Peter M. Campbell, John G. Oakeshott, Marion J. Healy 501 Purification and kinetic characterisation of juvenile hormone esterase from *Drosophila melanogaster*

Dorte Bærnholdt, Svend Olav Andersen 517 Sequence studies on post-ecdysial cuticular proteins from pupae of the yellow mealworm, *Tenebrio molitor*

Forthcoming papers 527

Contents of *Journal of Insect Physiology* 529

NUMBER 8

Rapid Communication

Nannan Liu, Jeffrey G. Scott 531 Increased transcription of *CYP6D1* causes cytochrome P450-mediated insecticide resistance in house fly

M. Hirai, D. Watanabe, A. Kiyota, Y. Chinzei 537 Nucleotide sequence of vitellogenin mRNA in the bean bug, *Riptortus clavatus*: analysis of processing in the fat body and ovary

Kristina Gruden, Borut Štrukelj, Tatjana Popovič, Brigita Lenarčič, Tadeja Bevec, Jože Brzin, Igor Kregar, Jana Herzog-Velikonja, Willem J. Stiekema, Dirk Bosch, Maarten A. Jongsma 549 The cysteine protease activity of Colorado potato beetle (*Leptinotarsa decemlineata* Say) guts, which is insensitive to potato protease inhibitors, is inhibited by thyroglobulin type-1 domain inhibitors

A. R. Nor Aliza, David W. Stanley 561 A digestive phospholipase A_2 in larval mosquitoes, *Aedes aegypti*

Charani Ranasinghe, Andrew A. Hobbs 571 Isolation and characterization of two cytochrome P450 cDNA clones for CYP6B6 and CYP6B7 from *Helicoverpa armigera* (Hubner): possible involvement of CYP6B7 in pyrethroid resistance

Glenn D. Baxter, Stephen C. Barker 581 Acetylcholinesterase cDNA of the cattle tick, *Boophilus microplus*: characterisation and role in organophosphate resistance

Line Duportets, Christophe Gadenne, Marie-Cécile Dufour, Franck Couillaud 591 The pheromone biosynthesis activating neuropeptide (PBAN) of the black cutworm moth, *Agrotis ipsilon*: immunohistochemistry, molecular characterization and bioassay of its peptide sequence

Zhenzhong Chen, Tim Newsome, John A. McKenzie, Philip Batterham 601 Molecular characterization of the *Notch* homologue from the Australian sheep blowfly, *Lucilia cuprina*

Zhong Hui Wang, Ann M. Fallon 613 Similarities to a LINE element shared by Anopheline and Culicine mosquitoes map to the distal end of dihydrofolate reductase amplicons in *Aedes albopictus* mosquito cells

Forthcoming papers 625

Contents of *Journal of Insect Physiology* 627

NUMBER 9

Sohail Ahmed, Richard M. Wilkins, David Mantle 629 Comparison of proteolytic enzyme activities in adults of insecticide resistant and susceptible strains of the housefly *M. domestica* L

Josiane Girardie, Jean-Claude Huet, Zineb Atay-Kadiri, Saghir Ettaouil, Jean-Paul Delbecque, Bernard Fournier, Jean-Claude Pernollet, Adrien Girardie 641 Isolation, sequence determination, physical and physiological characterization of the neuroparsins and ovary maturing parsins of *Schistocerca gregaria*

Huey-Shiang Huang, Nien-Tai Hu, Ying-Erh Yao, Chiou-Ying Wu, Shih-Wen Chiang, Chih-Ning Sun 651 Molecular cloning and heterologous expression of a glutathione *S*-transferase involved in insecticide resistance from the diamondback moth, *Plutella xylostella*

Oana Marcu, Michael Locke 659 A cuticular protein from the moulting stages of an insect

Kunihiro Shiomi, Teruyuki Niimi, Yukihiro Sato, Kunio Imai, Okitsugu Yamashita 671 A hydrophobic peptide (VAP-peptide) of the silkworm, *Bombyx mori*: a unique role for adult activity proposed from gene expression and production at the terminal phase of metamorphosis

G.D. Yocum, K.H. Joplin, D.L. Denlinger 677 Upregulation of a 23 kDa small heat shock protein transcript during pupal diapause in the flesh fly, *Sarcophaga crassipalpis*

Jun Zhang, Norbert H. Haunerland 683 Transcriptional regulation of FABP expression in flight muscle of the desert locust, *Schistocerca gregaria*

M. Sundaram, S.R. Palli, P.J. Krell, S.S. Sohi, T.S. Dhadialla, A. Retnakaran 693 Basis for selective action of a synthetic molting hormone agonist, RH-5992 on lepidopteran insects

Julie A. Tillman, Glenn L. Holbrook, Paul L. Dallara, Coby Schal, David L. Wood, Gary J. Blomquist, Steven J. Seybold 705 Endocrine regulation of de novo aggregation pheromone biosynthesis in the pine engraver, *Ips pini* (Say) (Coleoptera: Scolytidae)

Forthcoming papers 717

Contents of *Journal of Insect Physiology* 719

NUMBER 10

Changlin Chen, Andrew F. Rowley, Norman A. Ratcliffe	721	Detection, purification by immunoaffinity chromatography and properties of β-1,3-glucan-specific lectins from the sera of several insect species
Miranda C. van Heusden, Floyd Thompson, Jonathan Dennis	733	Biosynthesis of *Aedes aegypti* lipophorin and gene expression of its apolipoproteins
David P. Bown, Hillary S. Wilkinson, John A. Gatehouse	739	Midgut carboxypeptidase from *Helicoverpa armigera* (Lepidoptera: Noctuidae) larvae: enzyme characterisation, cDNA cloning and expression
Marie Trabalon, Grégory Pourié, Nadine Hartmann	751	Relationships among cannibalism, contact signals, ovarian development and ecdysteroid levels in *Tegenaria atrica* (Araneae, Agelenidae)
Man Yeon Choi, Minoru Tanaka, Hiroshi Kataoka, Kyung Saeng Boo, Sadahiro Tatsuki	759	Isolation and identification of the cDNA encoding the pheromone biosynthesis activating neuropeptide and additional neuropeptides in the oriental tobacco budworm, *Helicoverpa assulta* (Lepidoptera: Noctuidae)
Skarlatos G. Dedos, Hajime Fugo, Hiroshi Kataoka	767	A new cerebral factor stimulates IP_3 levels in the prothoracic glands of *Bombyx mori*
Neil Audsley, Robert J. Weaver, John P. Edwards	775	Enzyme linked immunosorbent assay for *Manduca sexta* allatostatin (Mas-AS), isolation and measurement of Mas-AS immunoreactive peptide in *Lacanobia oleracea*
Aya Nomura Kitabayashi, Toshimitsu Arai, Takeo Kubo, Shunji Natori	785	Molecular cloning of cDNA for p10, a novel protein that increases in the regenerating legs of *Periplaneta americana* (American cockroach)
Qi-Li Feng, Tim R. Ladd, Arthur Retnakaran, Kenneth G. Davey, Subba R. Palli	791	Identification and developmental expression of the mitochondrial phosphate transport protein gene from the spruce budworm, *Choristoneura fumiferana*
Shean-Jaw Chiou, Jozef Vanden Broeck, Ine Janssen, Dov Borovsky, Frank Vandenbussche, Gert Simonet, Arnold De Loof	801	Cloning of the cDNA encoding *Scg*SPRP, an unusual Ser-protease-related protein from vitellogenic female desert locusts (*Schistocerca gregaria*)
Erratum	809	
Forthcoming papers	811	
Contents of *Journal of Insect Physiology*	813	

NUMBER 11

Martine Maïbèche-Coisné, Emmanuelle Jacquin-Joly, Marie-Christine François, Patricia Nagnan-Le Meillour	815	Molecular cloning of two pheromone binding proteins in the cabbage armyworm *Mamestra brassicae*
Marie-dominique Franco, Matthew E Rogers, Chisato Shimizu, Hiroko Shike, Richard G Vogt, Jane C Burns	819	Infection of lepidoptera with a pseudotyped retroviral vector
Sang Woon Shin, Soon-Sik Park, Doo-Sang Park, Mi Gwang Kim, Sun Chang Kim, Paul T Brey, Ho-Yong Park	827	Isolation and characterization of immune-related genes from the fall webworm, *Hyphantria cunea*, using PCR-based differential display and subtractive cloning
Anas Cherqui, Bernard Duvic, Corine Reibel, Michel Brehélin	839	Cooperation of dopachrome conversion factor with phenoloxidase in the eumelanin pathway in haemolymph of *Locusta migratoria* (Insecta)
Qisheng Song, Lawrence I Gilbert	849	Alterations in ultraspiracle (USP) content and phosphorylation state accompany feedback regulation of ecdysone synthesis in the insect prothoracic gland
Shi-Hong Gu, Yien-Shing Chow, David R O'Reilly	861	Role of calcium in the stimulation of ecdysteroidogenesis by recombinant prothoracicotropic hormone in the prothoracic glands

of the silkworm, *Bombyx mori*

Richard W McKenzie, Mark D Brennan 869 *Cis*-acting sequences contributing to expression of the *Drosophila affinidisjuncta Adh* gene in both larvae and adults

Holley L Handley, Barbara H Estridge, James T Bradley 875 Vitellin processing and protein synthesis during cricket embryogenesis

Jacques Puiroux, Anne Pédelaborde, Barry G Loughton 887 Partial purification of a putative proctolin receptor from the African migratory locust

Wen Qi Wu, Jun Wei Zhu, Jocelyn Millar, Christer Löfstedt 895 A comparative study of sex pheromone biosynthesis in two strains of the turnip moth, *Agrotis segetum*, producing different ratios of sex pheromone components

Iason Kostaropoulos, Athanasios I Papadopoulos 901 Glutathione S-transferase isoenzymes expressed in the three developmental stages of the insect *Tenebrio molitor*

Forthcoming papers 911

Contents of *Journal of Insect Physiology* 913

NUMBER 12

Marten J. Edwards, David W. Severson, Henry H. Hagedorn 915 Vitelline envelope genes of the yellow fever mosquito, *Aedes aegypti*

Kozo Tsuchida, Meko Arai, Yoshiro Tanaka, Ren Ishihara, Robert O. Ryan, Hideaki Maekawa 927 Lipid transfer particle catalyzes transfer of carotenoids between lipophorins of *Bombyx mori*

Chelsea T. Smartt, Jody Chiles, Carl Lowenberger, Bruce M. Christensen 935 Biochemical analysis of a blood meal-induced *Aedes aegypti* glutamine synthetase gene

Helen Mao, W. Reuben Kaufman 947 DNA binding properties of the ecdysteroid receptor in the salivary gland of the female ixodid tick, *Amblyomma hebraeum*

Bernard Duvic, Michel Brehélin 959 Two major proteins from locust plasma are involved in coagulation and are specifically precipitated by laminarin, a β-1,3-glucan

Lisa M. Unruh, Rongda Xu, Karl J. Kramer 969 Benzoquinone levels as a function of age and gender of the red flour beetle, *Tribolium castaneum*

Balu T. Kuzhivelil, U.V.K. Mohamed 979 Allantoin and allantoic acid titre in the faeces and tissues of the developing larva of the moth, *Orthaga exvinacea* Hampson

Toshimitsu Arai, Takeo Kubo, Shunji Natori 987 Cloning of cDNA for regenectin, a humoral C-type lectin of *Periplaneta americana*, and expression of the regenectin gene during leg regeneration

Hitoshi Saito 995 Purification and properties of two blue biliproteins from the larval hemolymph and integument of *Rhodinia fugax* (Lepidoptera: Saturniidae)

Zhicheng Shen, Marcelo Jacobs-Lorena 1007 Nuclear factor recognition sites in the gut-specific enhancer region of an *Anopheles gambiae* trypsin gene

R. Milne, T. Wright, H. Kaplan, D. Dean 1013 Spruce budworm elastase precipitates *Bacillus thuringiensis* δ-endotoxin by specifically recognizing the C-terminal region

M.T. Cheeseman 1025 Characterization of apyrase activity from the salivary glands of the cat flea *Ctenocephalides felis*

Robert C. Jamroz, Felix D. Guerrero, Diane M. Kammlah, Sidney E. Kunz 1031 Role of the *kdr* and *super-kdr* sodium channel mutations in pyrethroid resistance: correlation of allelic frequency to resistance level in wild and laboratory populations of horn flies (*Haematobia irritans*)

J.E. Baker, J.A. Fabrick, K.Y. Zhu 1039 Characterization of esterases in malathion-resistant and susceptible strains of the pteromalid parasitoid *Anisopteromalus calandrae*

José Ribeiro 1051 *Rhodnius prolixus* salivary nitrophorins display heme-peroxidase activity

Xavier Lauth, Alexandr Nesin, Jean-Paul Briand, Jean-Pierre Roussel, Charles Hetru 1059 Isolation, characterization and chemical synthesis of a new insect defensin from *Chironomus plumosus* (Diptera)

Erratum 1067
Forthcoming papers 1069
Contents of *Journal of Insect Physiology* 1071
Volume Index 1073
